TO THE PARENTS OF FOUNDATION

November 2013

Dear Parents

The Foundation Staff would like to inform you there are currently a number of children with chicken pox in foundation classrooms. If your child shows any signs of having a high temperature, complains of aches and pains or feels unwell please keep them at home. Children are contagious before the blisters appear and remain contagious until all blisters have covered over. Therefore it is very important to keep your child at home for the duration of their illness.

Please get a letter from your doctor confirming your child has chicken pox and also another letter at the end of their illness giving them clearance to return to school. This will help reduce the spread of this contagious virus.

We would also like to remind you that the November fees are now due for the Foundation Nursery. If you are using this service and collecting your child after 1:30pm, please pay your 25KD to the school cashier. Please be aware that failure to pay the Nursery fees puts your child at risk of being re-enrolled for the 2014/15 academic year.

Kind regards

Ms Clare (Head of Foundation) and the Foundation Staff
